Fullstack Developer building web, backend, database, and mobile applications. Works with React, TypeScript, NestJS, PostgreSQL, Kotlin, and Flutter, with a focus on maintainable architecture, reliable APIs, and user-focused experiences.

CORE SKILLS

Languages: TypeScript, JavaScript, Kotlin, Dart
Frontend & Mobile: React, React Native, Tailwind CSS, Jetpack Compose, Flutter
Backend & Data: NestJS, Node.js, Express.js, REST API, PostgreSQL, Prisma, Supabase
Engineering & Tools: Clean Architecture, MVVM, Repository Pattern, Dependency Injection, Git, GitHub, Postman, Docker, Swagger, Figma

EXPERIENCE

Frontend Developer · Pondok IT Indonesia January 2026 — July 2026
Rumah IT Program · Bekasi, Indonesia

React · TypeScript · REST API

- Built reusable frontend components and responsive, consistent web interfaces.
- Integrated frontend features with REST APIs and debugged application behavior.
- Improved component maintainability and UI consistency within a structured team workflow.
- Contributed to a Crowdfunding Platform and SIMAS, a Mosque Management Information System.

SELECTED PROJECTS

Math For Fun Completed
Fullstack mobile learning application with quizzes, progress tracking, answer review, AI-assisted learning, REST API integration, and a relational database.
